

## EQUIP Training Registration Form

For those that wish to adopt the EQUIP program, they must first identify and enroll their personnel that come into contact with the CSafe container into the EQUIP training program. Detailed below is a matrix that can be populated by the training department for pre-registered individuals for the EQUIP accreditation training. This information will be used to create individual training plans and allow the on-line training partner GISTnet, to initiate the training and assessment process directly via e-mail. Individuals must have their own e-mail address and access to the internet for training and assessment.

### RKN Training Modules

Shown below are the EQUIP™ modules for the RKN active container that individuals can gain accreditation for:

Module	Title	Applicability
1	RKN Product Overview Accreditation	Compulsory – all users
2	Lease Processing Accreditation	Responsible for Leasing CSafe Products
3	RKN Handling Accreditation	Responsible for Transporting the RKN
4	RKN Pack Out Accreditation	Responsible for Loading the RKN
5	RKN Shipment Activation & Termination Accreditation	Responsible for starting & ending the shipment

### Registration Details

Fill in the registration form as indicated by the example shown below, for all individuals that have been selected for training. Identify which modules they need to complete based upon their day to day interaction with the container.

Name	Company	Department	Site	e-mail	Modules				
					1	2	3	4	5
