

CSafeCONNECT

A New Frontier for the Truly Integrated Supply Chain

CSafe Connect is the cloud-based customer portal that brings together product ordering, tracking, reporting and customer support under a single login, to give CSafe customers the first truly integrated supply chain. You can manage and track shipments in real time, log a support ticket, chat live with support staff and download important product materials.

Continuous end-to-end shipment visibility across the cold chain begins with effective tracking devices that feed essential data into a seamlessly integrated ecosystem. CSafe's TracSafe™ suite of data loggers enables simple and efficient access to your shipment information in real time.

Advantages

Ordering, tracking, alerts, reporting and support, all in one place

Unlimited number of user access

Ability to monitor shipments in real time

Shipments can easily be grouped for better tracking and reporting

Alerts provided in the platform, by e-mail and text message

Ability to customize and save routes

Ability to view and export data in real time during the shipment to intervene as needed

GDP compliant standard shipment report (PDF)

TracSafe Data Loggers

CSafe Connect's shipment tracking and analytics are enabled by the TracSafe suite of data loggers.

TracSafe data loggers are available in single-use (USB), reusable (BLE) and real-time applications. The data loggers are integrated within the shipper for improved ease of use and reduced procurement burdens.

To learn more about CSafe Connect and how TracSafe data loggers can enhance the visibility for your cold chain journey, request a demo today.

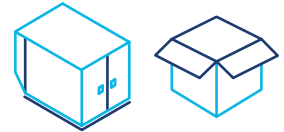

TracSafe Features

A portfolio of data loggers to suit every requirement

Single-use, reusable and real-time options available

Integrated within CSafe RKN, CSafe RAP, CSafe APS, Softbox VIP and CGT Ultra

Monitor location, payload and ambient temperatures, humidity, pressure, shock, tilt and access breaches

Real-time alerts enable immediate response

Shipment data visible to all approved stakeholders via the CSafe Connect customer portal 24/7
