

## CourierMAX

### Passive Temperature Management Courier Solution

CSafe Courier MAX, with vacuum insulated panel (VIP) technology, is designed for physicians, pharmacists, researchers, pharmaceutical representatives and other healthcare professionals making “last-mile” deliveries of temperature-sensitive life science products.

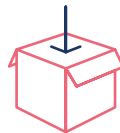

The Courier MAX is a simplistic, customizable and reusable temperature management solution that offers options to accommodate a variety of payload sizes, shipping durations and temperature ranges. The Courier MAX is perfect for providing peace of mind and thermal protection for vital healthcare product deliveries.

## Key Features

Superior VIP insulation providing greater thermal efficacy

Simplistic conditioning and pack-out design

Lightweight, highly portable and easy to clean

Water and skid resistant bottom

Side and front pockets for convenient storage

Compatible with most wheeled carts

**PAYLOAD (LITERS)**  
**3-18**

**TEMPERATURE RANGE**  
**+2°C to +8°C**  
**+2°C to +25°C**  
**+15°C to +25°C**  
**< -20°C**

**DURATION (HOURS)**  
**12-48**
