

CourierPRO

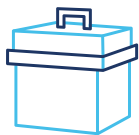

Passive Temperature Management Carrying Case

The Courier PRO is designed for healthcare providers and global immunization organizations requiring handheld portable solutions to transport vaccines, pharmaceuticals, healthcare specimens and other biomedical products.

The Courier PRO delivers reliable, long-lasting temperature control for up to 22 hours in a variety of temperature profiles (+2°C to +8°C, -10°C and -20°C) by using phase change coolant packs and vacuum insulated panel (VIP) technology. With the Courier PRO insulated carrying case, crucial temperature-sensitive healthcare products can be transported with confidence providing users with ultimate protection.

Key Features

Lightweight, portable case

Superior VIP insulation, providing up to 10 times greater thermal efficacy

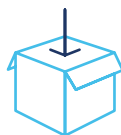

Available in three distinct temperature ranges

Phase change coolant packs provide long-lasting temperature control

Unique design eliminates need for ice or active power

Simplistic conditioning and pack-out of coolant packs

Optimized design with 1 liter of payload space

Durable handle for comfortable carrying

PAYLOAD (LITERS)
1

TEMPERATURE RANGE
+2°C to +8°C
< -10°C
< -20°C

DURATION (HOURS)
24-48

PRODUCT NAME	PAYLOAD	INTERNAL DIMENSIONS L x W x H	TARE WEIGHT	PACKOUT
Courier PRO	1 L 0.03 cu ft	236 x 84 x 50 mm 9.3 x 3.3 x 2 in	2.5 kg 5.5 lbs	Universal
