

Thermal Protection for Vital Healthcare Product Deliveries

CSafe Courier MAX, with Vacuum Insulated Panel (VIP) technology, is designed for physicians, pharmacists, researchers, pharmaceutical representatives and other healthcare professionals making last-mile delivery of temperature-sensitive life science products.

The Courier MAX is a simple, customizable and reusable temperature management solution that offers options to accommodate a variety of payload sizes, shipping durations and temperature ranges. The Courier MAX is perfect for providing peace of mind and thermal protection for vital healthcare product deliveries.

Key Features

Superior VIP insulation providing greater thermal efficacy

Simplistic conditioning and packout design

Lightweight, highly portable and easy to clean

Chilled, ambient and frozen temperature control options

Broad portfolio available in 3 sizes: 3L, 6L, and 12L

Water and skid resistant bottom

Side and front pockets for convenient storage

Compatible with most wheeled carts
