

# Water-Based Bulk Air Cargo Pallet Shipper

Silverpod® PRO pallet shippers continue to live up to their reputation as best-in-class passive temperature-controlled bulk air cargo solutions. Designed for palletized loads, they optimize capacity and integrate perfectly with different global freight networks. Ease of delivery, storage and assembly while utilizing flat-packed components also help to reduce pressure on your bottom line.

Silverpod PRO pallet shippers will comfortably maintain the designated temperature for a range of transport modes and extended durations.

## Key Features

---

Designed to accept loose and palletized consignments

Easy conditioning

Plastic base or wood base pallet available depending on model

Patented design

US and Euro pallet footprint options available

Easy assembly speeds up packing process

Supplied flat packed for cost-effective delivery and storage

Available worldwide via extensive network

# PCM Bulk Air Cargo Pallet Shippers

Silverpod® MAX, our single-use passive pallet shipper, has all the quality hallmarks of its Silverpod name, as well as new innovations to give you a shipper that delivers in all the crucial areas.

The focus of this evolution has centered around combining advanced insulation materials. Our engineers have blended the standout features of the original Silverpod together with advanced phase change material (PCM) refrigerants which enable packing and storage prior to shipping.

## Key Features

---

Next generation  
Pharmacool™ MAX  
PCM refrigerants

PCM refrigerants enable  
safe storage before and  
during shipping

Up to 120+ hours of qualified  
thermal protection

Easy conditioning process

Plastic base or wood base  
pallet available depending  
on model

Easy assembly speeds up  
packing process

Supplied flat packed for  
cost-effective delivery and  
storage

Available worldwide via  
extensive network

# Reusable Pallet Shipper for a More Sustainable Future

We've taken our globally recognized Silverpod passive pallet shipper and enhanced it for reuse to bring you CSafe's Silverpod RE—a highly durable PCM pallet shipper made entirely of reusable components.

An alternative to our single-use pallet shippers, this new product is a sustainable solution with the reliability and exceptional quality that CSafe is known for. It includes a built-in TracSafe RLT data logger that integrates with CSafe Connect for real-time shipment visibility throughout the entire journey.

We have also made key enhancements, like adding durable exterior panels and extended edge and corner cap protection, to create a premium reusable model to help you achieve your sustainability goals. Further, our rental structure allows you to eliminate disposal costs, bringing added value to your business and your customers—with minimal impact on the environment.

## Key Features

 <p>Reusable components and recyclable Pharmacool™ MAX PCM coolants</p>	 <p>Turnkey refurbishment services included and provided by CSafe</p>	 <p>120+ hours of qualified thermal protection</p>	 <p>Easy conditioning process with PCM coolants, providing enhanced thermal protection and safe storage</p>
 <p>Integrated real-time visibility tracker</p>	 <p>Quicker, more efficient assembly with our universal packing process</p>	 <p>Supplied flat packed for cost-effective delivery and storage</p>	 <p>Available worldwide</p>
